

Office Energy Saver (Order Code BBS0ES)

Save money when you turn all these devices off at night with one simple switch ...

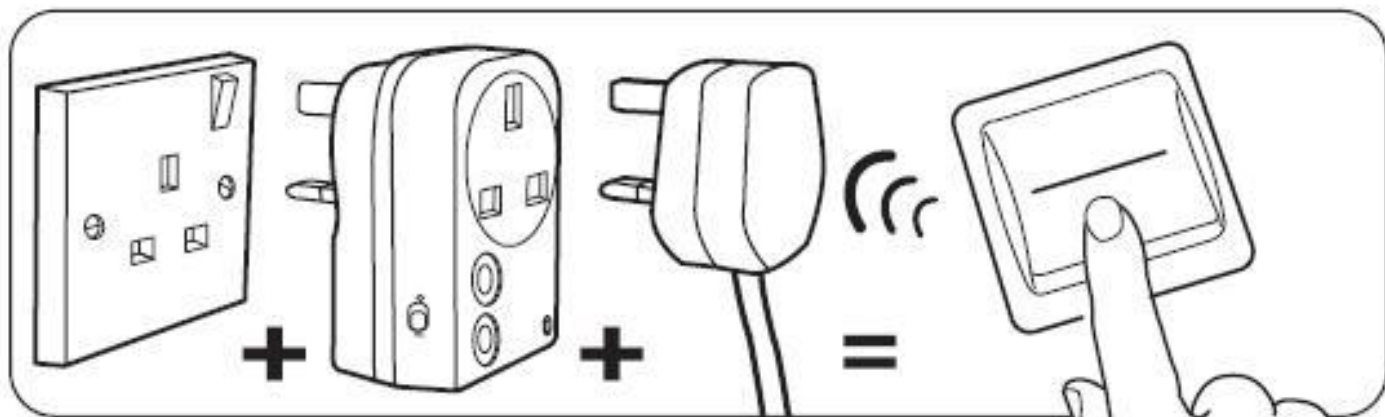

Special Offer **£19.99**

Photocopiers	Save £60
Coffee machines	Save £105
Computers	Save £15
Printers	Save £50

(typical annual savings, figures based on 10p per unit - figures from Oxford University)

Recession Busting Energy Saving

Plug your photocopier, printers etc into a smart socket and then at night press the wall switch to turn them all off, saving standby power overnight. Next morning, press the switch again to turn them all back on - saves money, saves the environment.

- Easy "Plug and Play" wireless installation - does not require additional wiring
- Smart Sockets can control up to 4 devices each - when plugged into 4 way extension
- Compatible with any appliance up to 3000W
- No clambering under desks to turn things off
- 64 codes allows control of multiple devices

Pays for itself in 6 months
